

The **Multicriteria Assessment Grid** and a **Selection Confirmation Letter** template, adapted to international standards (AFD/EU).

1. Assessment Grid (AMI N° 2026-001/ADSJC/GEO-POLY)

Evaluation Criteria	Key Performance Indicators (KPIs)	Weighting Score (/10)	Weighted Total
1. Technical Compliance	REACH compliance, CBR test results, versatility across 12 soil types (clay, laterite).	35%	/35
2.Environmental Impact	Carbon footprint, Bio-based content, water-based vs. solvent-based, non-toxicity.	25%	/25
3.Cost Efficiency	Total cost of implementation per m2 or per brick (including dilution ratios)	20%	/20
4.Logistics & Supply Chain	Proven ability to ship to Mainland France and Overseas Territories (DOM-TOM).	10%	/10
5.International Track Record	Proven references in similar infrastructure or housing projects worldwide	10%	/10
GRAND TOTAL		100%	/100

The Association for Solidarity Development and Cultural Twinning (A.D.S.J.C.) is committed to strengthening social ties and promoting cultural diversity as drivers of development. While the A.D.S.J.C. is a unique organization, its actions resonate with the national ambitions for social and cultural transformation embodied in the France 2030 plan.

Presentation of the A.D.S.J.C.

The association's primary mission is to foster solidarity and intercultural dialogue through:

- Cultural twinning: Building bridges between different regions to encourage the exchange of knowledge and artistic practices.
- Solidarity development: Supporting local projects aimed at social inclusion and improving the living conditions of local populations.
- Social Cohesion: Using Culture as a Tool to Combat Isolation and Promote Civic Engagement

The France 2030 Vision

A.D.S.J.C

Association de Développement
Solidaire et de Jumelage Culturel

The France 2030 plan, with a budget of €54 billion, aims to sustainably transform key sectors of the economy and society by 2030. For an organization like ADSJC, this vision is based on three main pillars.

1. Improving Life Through Culture

- Supporting innovation in the Cultural and Creative Industries (CCI) to make culture more immersive and accessible.
- Supporting the ecological transition of cultural organizations through initiatives such as the "Green Alternatives" program.

2. Improving Production and Transformation in Local Communities

- Promoting the development of "Regional Hubs for Cultural and Creative Industries" to sustainably anchor projects at the heart of local communities.
- Investing in the talents of tomorrow through innovative training programs adapted to new technological and environmental challenges.

3. A Sovereignty Based on Solidarity and Innovation.

- Dedicating 50% of France 2030 funding to emerging and innovative players, enabling associations and small organizations to become tomorrow's leaders.
- Addressing the Sustainable Development Goals (SDGs) of the 2030 Agenda by integrating heritage preservation and the fight against inequality.

In 2026, this vision continues with a greater regionalization of support mechanisms, allowing for more direct application of investments to local solidarity projects.
